

22.11.2017, collective negotiations Railrest

## „We are not DB“

says Peter de Groot during negotiations 22.11.2017 in Cologne.

We say: You all are equal!

Employer such as Railrest, DB, or whatever is your name,  
during negotiations the employer demands lots from employees, but  
on the other hand offers himself just appetizer.

500 Euro single payment for 2016 und 2017  
3% from 1. Januar 2018,  
0,5% from 1. September 2018.  
And nothing more!

Although employees moved during Check in / Check out  
periods upon their pain barrier and showed here a give and take  
attitude. This proposal strains the already bad climate due to  
terminations between employees and employer in Cologne.

„Our members will decide now, how they react to this subterranean offer  
from your side. We will not exclude actions till the next round of negotiations.“
